- Optional fixed seat cushion or front upholstery available in a wide range of fabrics and leathers
- Available in multiple configurations across the AAC collection
- Suitable for a wide variety of private and public environments
- Qualified for contract use

AAC 22
DESIGN BY HEE WELLING

The About A Chair AAC 22 design exudes the functional simplicity that is characteristic of this entire collection. The solid shell comprises a curved back with armrests, providing excellent comfort and a soft, unified silhouette, while the four-legged wooden base adds a timeless, classic expression and ensures greater stability. The wooden base is available in different finishes, with the post-consumer recycled plastic shell offered in a wide palette of contemporary colours, along with multiple front or fixed seat upholstery options. The multitude of variants and design combinations give this series a versatile expression that makes it suitable for a wide variety of corporate, private, and public contexts.

Hee Welling is a Danish furniture designer who founded his Copenhagen-based studio in 2003. He studied at the University of Art and Design Helsinki and earned a master's degree in furniture design from the Royal Danish Academy of Fine Arts. Known for combining technical precision with refined simplicity, Welling creates functional, accessible designs distinguished by their strong proportions and understated elegance. For HAY, Welling has designed the About A series and the Hee Chair, Lounge Chair, and Bar Stool.

Supports a healthy indoor environment.
Confirms to ANSI/BIFMA standards.

EN TEST

EN 16139 - L2
Non-domestic seating

SUSTAINABILITY

At HAY, we believe good design should stand the test of time. That principle shapes the decisions we make – from the materials and suppliers we work with to the certifications we pursue to ensure our products meet recognised standards. We use recycled content where possible, FSC®-certified wood (FSC-C148805), and bio-based foam that helps lower our products' overall carbon footprint. We are also increasing the number of products certified with the EU Ecolabel and the Nordic Swan Ecolabel, reflecting our ambition to make lower-impact choices across our assortment. HAY follows strict regulatory requirements, and most of our products are tested to meet international standards for strength, durability, and safety.
