

Relevo Quattro Rug

"The Relevo rug came to be as it often does; on the drawing board with paper and pencil. We like to create a whole story around a project, this time with a rug that could be a sculpture in its own right, virtually changing the perception of a room. Relevo's swooping lines were inspired by land art and its sometimes furrowed, hypnotic paths in the soil. Relevo means relief in Latin, emblematic of the rug's geometric pattern, made by trimming the hand-tufted rug in levels and thereby creating a subtle effect of light and shadow, a compelling visual expression."

About the Designer	Studiopepe is an Italian multidisciplinary design studio based in Milan, founded by Arianna Lelli Mami and Chiara Di Pinot. The duo is known for their distinct way of working with composition and graphic form, as their unexpected concepts and stories vividly take physical form. Internationally acclaimed, their practice encompasses anything from architecture, product design and exhibitions to creative direction, installation and styling.
Environment	Indoor
Country of Production	India
Description	Relevo Quattro is a soft rug defined by a sculptural surface and a clear rectangular form with four distinct corners. Crafted from tufted wool trimmed at different levels, the design forms a precise graphic pattern where fine lines create nuanced shadow play across the surface. Available in the same color palette as the Relevo collection, Quattro introduces a more architectural and graphic dimension while preserving the tactile depth of the series.
Material	Made from 100% New Zealand wool and hand-tufted in India. The backing is made from 100% cotton and is applied with synthetic latex, ensuring the rug lies smoothly on the floor. Relevo Quattro does not require a rug pad due to its weight. Shedding is a natural occurrence and will decrease over time. The color may vary depending on the wool's natural base color. All rugs have a size tolerance of +/- 2%, meaning the dimensions may vary within this range.
Cleaning & Care	Regular, gentle vacuum cleaning is recommended. A vacuum cleaner without a brush head should be used, as this will not disturb the fibers. Excess material from shedding can be removed through vacuum cleaning and will decrease over time. For stains or spots, professional dry cleaning is recommended. Cleaning with water should be avoided, as this may damage the product.
